

# Gift Flip

The best gifts are those given by someone who truly understands the person to whom it is given. This exercise will test our gift-giving knowledge. Make two copies of this sheet. Cut one copy apart on the dotted lines. Keep the other for your reference.

Ask a class member to choose a slip and show it to you. Then ask that that class member to fold it on the solid line so his or her preferred gift is face up. Then have the remainder of the class try to guess that person's gift preference.
