HER FLIGHT WILL BE ON TIME

Super Bowl LVIII is ancient history now, but one fan made an epic 'round-the-world trek to get to the game in time for kickoff. Music superstar Taylor Swift is dating Kansas City Chiefs' tight end Travis Kelce, and she wanted to be in her seat to watch her boyfriend play for the Lombardi Trophy. The problem was that she was doing four shows in Tokyo. After her final show, she rushed to the airport to begin the twelve-hour, fifty-seven-hundred-mile journey across nine time zones and the international date line. At some point over the Pacific, the pilots received word that all the private aircraft parking lots at the airport in the destination city (Las Vegas) were full. Swift's plane landed in Los Angeles, and then she and her friends had to drive the final five-hour stretch to Allegiant Stadium in Vegas. She did make it to the game on time, and her boyfriend's team did take home the trophy.

HIS PROMISE WILL BE ON TIME

Sometimes we notice the discrepancy between the things God has promised to do in the world and the actual condition of the world, and we can begin to wonder if the Lord has forgotten or is slow about keeping his promises. In today's Scripture passage, the prophet Habakkuk received an assurance from God that, though the promised deliverance for his people seemed to be delayed, it would certainly come in its fullness and at the proper time.

1. What's the longest or most difficult journey you've ever made?
2. When has God made a promise to you, one that seemed to take a long time to materialize?
3. How can we patiently wait upon the Lord's timing?
